Getting Started — Getting a Quote

What you'll need before you begin:

- Your collection address (where we're picking up from)
- Your delivery address (where we're taking things to)
- Your preferred move date (approximate is fine)
- Your email address and a password you'll remember

Registration steps:

1. Visit the portal link provided by S-Move (or click "Get a free quote" on the website)
2. Select your job type — House Move, House Clearance, Waste Disposal, etc.
3. Enter your personal details: name, email, phone and a password
4. Enter your collection and delivery addresses and preferred move date
5. Add any notes that might be useful (access issues, special items, etc.)
6. Click **Submit & request quote**
7. You'll be taken straight to the Messages tab where our assistant will start gathering details

Tip: Save your portal link or bookmark the page — your personal portal link gives you instant access without needing to log in again on the same device.

The Quote Assistant (Chatbot)

After registering, you'll be connected to our automated quote assistant. It will ask you questions to build an accurate inventory of your items — this helps us provide the right size vehicle and crew for your move.

How it works:

The assistant will go through your home room by room, asking about furniture and large items. It only needs furniture and bulky items — not clothing, books or kitchen items (those are covered by the box count).

What it will ask about:

- Furniture in each room (sofas, beds, wardrobes, tables, etc.)
- Approximate number of boxes/bags you'll pack yourself
- Any special or heavy items (piano, gym equipment, safe, mounted TV)
- Loft or attic contents
- Access at each address (floor, lift availability, parking)
- Whether you'd like our professional packing service
- Whether you need packing materials (boxes, bubble wrap, tape)
- Your preferred move type (key exchange, keys prior, or storage needed)
- How you heard about us

Note: The assistant will never ask you to estimate van size or volume — just tell it what items you have and it handles the rest.

Tip: If a room is tricky to describe, you can upload photos via the Documents tab. Our team will analyse them and factor them into your quote.
