

RemovalDesk

For drivers and porters: everything you need to manage your shifts

Version 1.0

Welcome

The staff portal is your personal app for managing your shifts, submitting hours, and keeping your details up to date. It works on any device — phone, tablet or laptop.

Logging In

1. Go to the portal link provided by your manager (or the /staff URL)
2. Enter your **email address** and **password**
3. Tap **Sign in**
4. You'll land on the **My Shifts** tab

Note: If you've forgotten your password, contact your manager to have it reset.

My Shifts

The **My Shifts** tab is your home screen. It shows your confirmed shifts — past and upcoming.

Upcoming shifts:

Upcoming shifts show as a simple card with the date and your role (Driver or Porter). Full job details are only shown on the day of the shift.

Today's shifts (shown on the day):

On the day of a shift, you'll see full details including:

- Customer name and contact number
- Collection address and delivery address (with tap-to-navigate links)
- Job type (House Move, Waste Disposal, etc.)
- Start time and meeting location
- Admin notes from the office (any special instructions)
- For flex tasks: what materials to deliver/collect and any delivery notes

Past shifts:

Past shifts show your history. If a finish time hasn't been approved yet, it will show as "awaiting approval".

Available Shifts

The **Available** tab shows open shifts you can apply for. Only shifts matching your role (driver/porter) are shown.

1. Tap **Available** in the navigation
2. Browse the shifts listed — each shows the date, role, and job reference
3. Tap **Apply** on a shift you'd like to work
4. The manager will confirm or decline your application

5. Once confirmed, the shift appears in your **My Shifts** tab

Note: Once a shift has been filled by another staff member it will disappear from this list automatically.

Requesting to Be Removed from a Shift

If you need to be removed from a confirmed shift, use the **Cancel Shift** tab to send a request to your manager. You remain on the shift until it is confirmed by admin.

1. Tap **Cancel Shift** in the navigation
2. Select the shift you need to be removed from
3. Choose a reason and add any notes
4. Tap **Submit request**
5. Wait for confirmation from your manager — do not assume you're off until confirmed

Calendar

The **Calendar** tab gives you a monthly view of your shifts. Days with confirmed shifts are highlighted. Days with available open shifts are also marked.

Tap on any date to see shift details for that day.

Tip: The calendar automatically scrolls to today's date when you open it.

Marking a Job as Complete

At the end of a job, mark it as complete from your shift card. This notifies the office that the job is finished.

1. Find the job on **My Shifts** (it will be shown today)
2. Scroll to the bottom of the shift card
3. Tap **Mark job as complete**
4. The office will be notified and will confirm on their side

Note: For material delivery or collection tasks, tap "Mark task as complete" instead.

Submitting Your Finish Time

After a job, submit your actual finish time so your hours can be logged and approved for payroll.

1. On the shift card, scroll to the **Log finish time** section
2. Enter the time you finished (e.g. 14:30)
3. Tap **Submit finish time**
4. Your manager will review and approve it

5. Once approved, the time is locked and will appear on your payslip

Flex Tasks (Material Deliveries & Collections)

Sometimes you'll be assigned a **flex task** — a smaller job such as delivering packing materials to a customer before their move, or collecting materials afterwards.

What you'll see on a flex task shift card:

- A green banner showing the task name (e.g. "Deliver materials to [Customer Name]")
- The customer's address with a link to navigate
- A list of materials to deliver or collect
- Any special notes from the office (e.g. "customer will be out — leave in porch")

Marking a flex task complete:

Tap **Mark task as complete** at the bottom of the flex task card. The office will be notified immediately.

My Details

Keep your personal information up to date in the **My Details** tab. Changes are sent to your manager for approval before they take effect.

You can update:

- Contact details (phone number, email address)
- Emergency contact name, phone and relationship
- Bank account details for payroll (sort code and account number)
- Password

Note: Your manager must approve any changes to bank details before they are applied.

Payslips

Your payslips are generated weekly after your finish times have been approved. Go to the **Payslips** tab to view them.

- Each payslip shows the week's dates, shifts worked, hours, rate and total pay
- A notification will appear when a new payslip is available
- Payslips cannot be edited once approved — if there's an error, contact your manager
